READ THE ENCLOSED LEAFLET FOR FULL INSTRUCTIONS.

DIRECTIONS FOR USE

Desage and administration
 Shake contents before use. USE ALL PRODUCT WITHIN 24 HOURS OF OPENING.
 Do not expose directly to heat and light during use. The use of an insulated container is recommended during the day to protect the vaccine. If it is to be hung beside the race, ensure it is on the shady side.
Dose: Sheep and lambs: 2 mL by subcutaneous injection.

VACCINATION PROGRAM FOR SHEEP AND LAMBS:

Program: Sensitising Dose, followed 4-6 weeks later by a booster dose. Then a booster dose annually.

General directions

VACCINATION PROCEDURE

- CAUTION – AVOID CARCASS DAMAGE:**
1. Sterilise all injection apparatus by boiling for at least 10 minutes before use.
 2. Avoid use of strong disinfectants on apparatus.
 3. Maintain maximum cleanliness at all times.
 4. Keep needles sharp and clean. Change needles frequently (every 20-30 animals).
 5. Use short needles. Recommended maximum sizes are: 15 mm x 18 gauge for sheep and lambs.
 6. Check that the equipment is functioning properly and that it is delivering the correct dose.
 7. As far as possible avoid injection of animals during wet weather or under dusty conditions.
 8. Inject only under the skin, but not into the muscle, by raising a fold of skin and injecting the dose under the raised skin – **NOT INTO IT.**
 9. Sheep, particularly lambs, should be injected high on the side of the neck behind the ear.

WITHHOLDING PERIODS: Zero (0) days.

TRADE ADVICE

EXPORT SLAUGHTER INTERVAL (ESI): Zero (0) days.
FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

ADDITIONAL USER SAFETY INFORMATION: Take care to avoid self-injection. In the event of self-administration, seek medical attention if you are concerned. Show the package leaflet or label to the Medical Practitioner.

Additional information is listed in the safety data sheet.

DISPOSAL: Dispose of empty container by wrapping with paper and putting in garbage. Discarded needles/sharps should immediately be placed in a designated and appropriate labelled 'Sharps' container.

STORAGE: Store between 2°C and 8°C (refrigerate, do not freeze). Protect from light. Keep out of reach of children.
