COOPERS®
PERMATRACE®
3 YEAR SELENIUM
 PELLETS FOR SHEEP

For prevention and correction of selenium deficiency in sheep.

Selenium deficiency in sheep may give rise to:

1. White muscle disease or nutritional muscular dystrophy in lambs.
2. "Ill thrift" in young sheep.
3. Poor growth rate in lambs.
4. Periodontal disease (weak teeth) — adult sheep.
5. Diminished wool growth.

DIRECTIONS FOR USE

Contraindications:

This product is contraindicated:

- For use in lambs under two months of age.
- When selenium intake from pasture is high or selenium is provided by other means (such as top pasture dressing, vaccines or selenium drenches) or if sheep blood selenium levels are high. Users can determine selenium status of their sheep by consulting their veterinarian.

DOSAGE AND ADMINISTRATION:

Precautions:

Important: Do not use excessive force when dosing in order to avoid trauma and damage to the throat of the animal.

Sheep all ages - 1 pellet every 3 years.

Dose as soon as convenient after 8 weeks of age. Repeat dose on veterinary advice.

WITHHOLDING PERIOD: Zero (0) Days.

TRADE ADVICE:

EXPORT SLAUGHTER INTERVAL (ESI): Zero (0) Days

GENERAL DIRECTIONS: To be effective the pellet must be swallowed. It is recommended that pellets be administered using the Coopers® Sheep Pellet Applicator. It is important to carefully read the applicator use instruction leaflet enclosed in container before use. It is recommended that a steel grinder be administered when treating sheep with the combination of PERMATRACE pellets outlined in the table below. This will keep the surface of the selenium pellet clean and active by preventing a coating building up on the surface of the pellet. Steel grinders are available from Coopers Animal Health.

For more information, call Coopers Customer Service on 1 800 226 511.

Situation	Steel Grinder Recommended
PERMATRACE Selenium Only	✓
PERMATRACE Selenium and Copper Only	✓
PERMATRACE Selenium and Cobalt Only	✗
PERMATRACE Selenium, Cobalt and Copper	✗

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.
