

READ THE ENCLOSED LEAFLET BEFORE USING THIS PRODUCT.

DIRECTIONS FOR USE: To be used ONLY in accordance with the instructions on this label unless authorised under appropriate legislation.

Restraints

FOR USE ONLY in non breeding cattle.

DO NOT use in heifers which are producing or may in the future produce milk or milk products for human consumption.

DO NOT USE this product in any other species of animal.

USE ONLY one implant per heifer and steer. Implant ONLY beneath the skin in the middle third of the ear.

DO NOT implant this product in any other site.

DO NOT USE this product on HGP free accredited cattle.

It is a breach of AQIS accreditation conditions to use this product on HGP free accredited cattle or to possess this product on any HGP free property (except for feedlots with flexible accreditation). Cattle implanted with this product must be individually identified with an approved ear punch mark.

DO NOT implant sooner than 70 days after last implant.

PRECAUTIONS: Implanting cattle under 6 weeks of age is NOT recommended. Implanting cattle intended for breeding is NOT recommended as they may experience decreased fertility. Growth responses may vary widely for nutritional or other reasons. Improved performance may be noted only when conditions are favourable for good growth.

Vaginal, rectal and preputial prolapse, increased bulling activity, high tailheads, sunken loins, ventral oedema and udder development may occur as side effects of treatment.

To help avoid abscess formation at the site of the implant, the surface of the ear should be thoroughly cleaned and disinfected before implantation.

**CAUTION
KEEP OUT OF REACH OF CHILDREN
FOR ANIMAL TREATMENT ONLY**

COOPERS®
REVALOR® FLEX
Growth promotant for non breeding cattle

ACTIVE CONSTITUENTS: EACH IMPLANT (4 PELLETS) CONTAINS: 80 mg TRENBOLONE ACETATE
16 mg 17 β OESTRADIOL

This product contains a palpable marker.

This product must only be supplied in accordance with Division 2 part 4 of the AgVet Regulations (Supply of Hormonal Growth Promotants)

For improved growth promotion in non breeding cattle.

Contents: 100 (10 cassettes x 10 implants)

TO BE USED BY SUBCUTANEOUS
EAR IMPLANTATION ONLY

COOPERS®
EST. 1843 

ADMINISTRATION: Approved implantation technique is fully described in the enclosed leaflet.

WITHHOLDING PERIODS:

MEAT: NIL

MILK: DO NOT use in heifers which are producing or may in the future produce milk or milk products for human consumption.

TRADE ADVICE: EXPORT SLAUGHTER INTERVAL (ESI): This product does not have an ESI established. For advice on the ESI, contact the manufacturer on 1800 226 511 before using this product.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. *Phone 13 11 26.*

DISPOSAL:

DO NOT dispose of unused implants in any way other than surrender to an approved retailer/wholesaler.

Dispose of empty cartridges by wrapping with paper and putting in garbage. Discarded needles should be placed in a designated 'sharps' container.

STORAGE:

Store below 25°C (Air conditioning).

APVMA Approval No.: 58656/100I/0610

revalor® is recommended for use in non breeding cattle. It can be used during the growing or finishing phase and results in improved weight gain due to deposition of added lean meat. Repeat implantation can be carried out during the growing and finishing phase, however, it is recommended that repeat implantation is not carried out sooner than 70 days and that there is adequate nutrition to ensure a growth response. Growth response may vary widely for nutritional or other reasons. Good quality feed is a prerequisite for best results whether on pasture, supplement or lot feeding. Maximum growth rate requires good quality stock with adequate control of parasites and other diseases.
