

Coopers® are striving to help producers **UNLOCK THEIR GROWTH POTENTIAL** in their herd with **REVALOR FLEX®**.

**REVALOR FLEX** offers cattle producers a flexible implant for non-breeding cattle making it the perfect choice for maximising herd performance across a range of management systems.

Coopers trial work<sup>^</sup> showed that **REVALOR FLEX** delivered significant liveweight gains where it matters most – over the scales.

## COOPERS® **REVALOR® FLEX**

GROWTH PROMOTANT FOR NON-BREEDING CATTLE

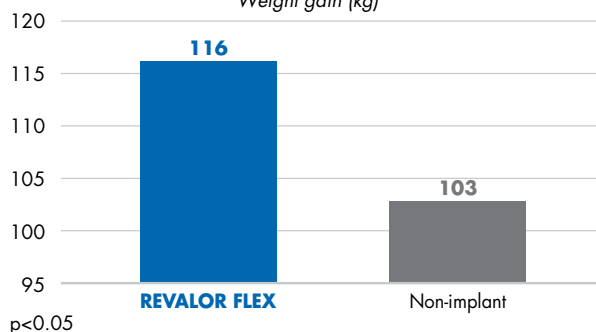

Active ingredients:  
Each implant (4 pellets) contains  
80 mg Trenbolone Acetate,  
16 mg Oestradiol 17β

Pack size: 100 doses

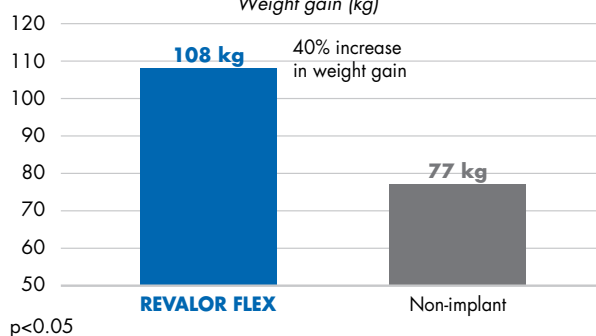

Withholding periods:  
Meat – nil, ESI not established

**Clermont District, Central Qld**  
**162 day heifer on-farm comparison**  
Weight gain (kg)

**Marlborough District, Central Qld**  
**158 day steers on-farm comparison**  
Weight gain (kg)

<sup>^</sup> Data on file. D.M. Pollock. 2012.

# REVALOR FLEX

## UNLOCK THEIR GROWTH POTENTIAL

### UNLOCK HERD GROWTH

**REVALOR FLEX** delivers a simplified implant program as cattle producers can use the one implant across a range of cattle classes<sup>1</sup> and feeding programs.

- **Weaners**
- **Steers and cull heifers**
- **Cull cows**

### UNLOCK CULL COW POTENTIAL

**REVALOR FLEX** allows cull cows<sup>1</sup> to be implanted prior to sale – spayed or un-spayed for greater flexibility and allows cattle producers to maximise weight gain opportunities.

### UNLOCK THROUGH RE-IMPLANTATION

**REVALOR FLEX** allows cattle to be re-implanted after 70 days from last implant to further accelerate growth.

Re-implantation offers additional growth and profitability when feed conditions and management activities allow.

## FEATURES AND BENEFITS

**REVALOR FLEX** delivers the flexibility to use one implant across their beef herd.

FEATURE	BENEFIT
<ul style="list-style-type: none"><li>• Maximise weight gain opportunities in each cattle class</li><li>• More efficient use of available feed</li><li>• Suitable for a range of feeding programs</li></ul>	<ul style="list-style-type: none"><li>• Turn off cattle HEAVIER and/or EARLIER</li><li>• Improved farm profitability</li><li>• Improved utilisation of all production units on the property</li></ul>
