Signal heading:	FOR ANIMAL TREATMENT ONLY
Product name:	Coopers® Permatrace® 3 Year Selenium Pellets for Sheep.
Active constituent/s:	50g/kg elemental Selenium.
Statement of claims:	<p>For prevention and correction of selenium deficiency in sheep.</p> <p>Selenium deficiency in sheep may give rise to:</p> <ol style="list-style-type: none"> <li>1. White muscle disease or nutritional muscular dystrophy in lambs.</li> <li>2. "Ill thrift" in young sheep.</li> <li>3. Poor growth rate in lambs.</li> <li>4. Periodontal disease (weak teeth) - adult sheep.</li> <li>5. Diminished wool growth.</li> </ol>
Net contents:	500 Pellets
Directions for Use Heading:	<b>Directions for Use</b>
Restraints:	Not applicable
Contraindications:	<p>This product is contraindicated:</p> <ul style="list-style-type: none"> <li>• for use in lambs under two months of age.</li> <li>• when selenium intake from pasture is high or selenium is provided by other means (such as top pasture dressing, vaccines or selenium drenches) or if sheep blood selenium levels are high. Users can determine selenium status of their sheep by consulting their veterinarian.</li> </ul>
Precautions:	Important: Do not use excessive force when dosing in order to avoid trauma and damage to the throat of the animal.
Side effects:	Not applicable
Dosage & Administration:	<p>Sheep all ages - 1 pellet every 3 years.</p> <p>Dose as soon as convenient after 8 weeks of age. Repeat dose on veterinary advice.</p>
General directions:	<p>To be effective the pellet must be swallowed. It is recommended that pellets be administered using the Coopers® Sheep Pellet Applicator. It is important to carefully read the applicator use instruction leaflet enclosed in container before use.</p> <p>It is recommended that a steel grinder be administered when treating sheep with the combination of Permatrace pellets outlined in the table below. This will keep the surface of the selenium pellet clean and active by preventing a coating building up on the surface of the pellet. Steel grinders are available from Coopers Animal Health.</p>

Situation	Steel Grinder Recommended
Permatrace Selenium only	✓
Permatrace Selenium and Copper only	✓
Permatrace Selenium and Cobalt only	X
Permatrace Selenium, Copper and Cobalt	X

### COOPERS® SHEEP PELLET APPLICATOR INSTRUCTIONS FOR USE

Instructions relating to use of the COOPERS® SHEEP PELLET APPLICATOR are outlined below. For safe and effective administration of COOPERS® PERMATRACE® sheep pellets and capsules, these instructions must be followed:

#### Sheep Pellet and Capsule Applicator Instructions for Use:

1. To be effective, sheep pellets and capsules must be swallowed. It is recommended that pellets be administered using the COOPERS® SHEEP PELLET APPLICATOR (See picture).

2. When loading the applicator, use slight pressure to pass each pellet underneath the plastic retaining tube into the base of the nozzle.
3. Stretch the animal's head forward and insert the nozzle of the applicator into the side of the sheep's mouth and over the base of the tongue. Care should be taken to ensure the animal is not allowed to chew on the tube.
4. The pellet should be deposited in the gullet, at the back of the tongue and the sheep observed for a short time to ensure the pellet has been swallowed. Tilting the animal's head slightly upwards will assist this operation (See picture of correct administration).
5. Under no circumstances should undue force be applied if any obstruction to ejection of the pellets or capsules is encountered. Withdrawing the applicator slightly and re-positioning it correctly will ensure easy and safe pellet administration.

Withholding Period/s:	<b>Zero (0) Days.</b>
Trade Advice:	EXPORT SLAUGHTER INTERVAL (ESI):       Zero (0) Days
Safety Directions:	Not applicable
First Aid:	<b>If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.</b>
Additional user safety:	Not applicable
